NH90-Q1	Seller shall provide and maintain a Quality System acceptable to the Buyer and Buyer's customers for the supplies and services covered by this purchase order. For NH90 production the Quality System requirements of AQAP-110 (AQAP 2110) are applicable.
NH90-Q2	Required documents: Measuring report(s) and Certificate of Conformity stating full compliance with purchase order requirements; - Original COC and measuring reports to be packed with the goods. - Sellers name and lot number on the COC. - Distributors shall also pack OEM's COC with the goods. Full traceability of the supply chain shall be guaranteed and be proven by the paperwork.
NH90-Q3	The management representative shall have the necessary organizational authority and freedom to resolve matters pertaining to quality. The management representative shall report directly to top management. The responsibility of the Management Representative shall include liaison with the Buyer, their customer and regulatory authorities on matters related to quality.
NH90-Q4	Before delivery of "new parts"(first time delivery), Seller shall perform a First Article Inspection (FAI) according AS9102. Before delivery of the parts, Buyer shall accept the FAI. After acceptance of FAI, production process, software, programs, used materials and parts shall be frozen. No changes to the production process, software, programs, used materials and parts can be implemented without Buyer's written permission. Changes permitted by Buyer are subject to (partial) FAI. Note: When the interval between two deliveries of the same part has exceeded 12 months, the part shall be considered a "new part" and a full FAI is required.
NH90-Q5	It is Sellers responsibility to check data such as drawings, specifications and other technical information relevant to the product and its production processes, against the contents of the Purchase Order, prior to production or process-start. Seller shall maintain the identification of the configuration of the product in order to identify any differences between the actual configuration and the agreed configuration, including identification of the product status with respect to monitoring and measurement requirements.
NH90-Q6	Buyer, their customer and regulatory authorities shall have right of access to all facilities and to all applicable records involved in the order. All requirements of this contract may be subject to GQA. You will be notified of any GQA activity to be performed.
NH90-Q7	Each change to Sellers organization, which is significant to the showing of conformity or the airworthiness of the part particularly changes to the Quality System, must be notified to the Buyer. A change in the location of Sellers manufacturing or processing facilities must be regarded as a change of significance. A change of Sellers ownership must be regarded as a change of significance.
NH90-Q8	The use of sub-tier suppliers is only allowed with Buyer's written permission. Where applicable, Seller shall flow down to sub-tier suppliers all applicable requirements in Buyer's purchasing documents, including required key characteristics.
HN90-Q9	Used shelf life materials shall be "factory new" unless Buyer Buyer's written

	permission.
NH90-Q10	<p>The Seller should implement a system for the compilation and retention of records during all stages of production and testing, covering short-term and long-term records appropriate to the nature of the product and its production processes.</p> <p>The management of such information should be subject to appropriate procedures in the Quality System.</p> <p>All forms of recording media are acceptable (paper, film, magnetic,...) provided they can meet the required duration for archiving under conditions provided.</p> <p>The related organization should:</p> <ul style="list-style-type: none"> <li>• Identify records to be kept.</li> <li>• Describe the organization of and the responsibility for the archiving system (location, compilation, format) and conditions for access to the information (e.g. by product, subject).</li> <li>• Control access and provide effective protection from deterioration or accidental damage.</li> <li>• Ensure continued readability of the records.</li> <li>• Demonstrate to Buyer the proper functioning of the records system.</li> <li>• Clearly identify the persons involved in conformity determination.</li> </ul> <p>The archiving period for data which supports conformity of a product should be kept for not less than ten (10) years from the issue date of the released product.</p> <p>Quality records shall be available for evaluation by Buyer for the above mentioned periods of time.</p> <p>In the event of termination of the Agreement all appropriate records shall be handed over to Buyer.</p>
NH90-Q11	All information submitted by Buyer, like drawings, production orders shall be returned to Buyer with delivered goods. Where Buyer submitted material to Seller, the remaining material shall be returned to Buyer with goods to be delivered.
NH90-Q12	Deviating from above mentioned requirements is only allowed with Buyer's written permission.

Approved:
